*All our pices are hand thrown in a human  
powered wheel.*

## Esmaltes / Glazes

Nuestros esmaltes son resultado de una ardua investigación de materiales. Desarrollamos colores naturales, suaves y sutiles. Son seguros y durables pero de colores flexibles –cada quema produce mínimas variantes de color y hace a cada pieza única.

*Our glazes were developed through a deep investigation process. We have developed natural, smooth and subtle colors wich are safe and resistant but change from firing to firing. Each of our pieces has unique colors and details*
